Ismar Alagić	Design Of Experiment And Taguchi Method Application In Analysis Of Gear Oil Pump Flow Capacity	8
Stanca Comşa, Adrian Pacioaga, Doina Gheorghiu	Developing Of New Systems And Test Methods For Biomaterials Testing	19
Paul-Nicolae Ancuta	3D Object Modeling and Visualization Software for Surgery Preoperative Plan	25
Piotr Szyrkarczyk, Rafal Czupryniak, Maciej Trojnacki, Adam Andrzejuk	Current State and Development Tendency in Mobile Robots for Special Applications	30
Stanca Comşa, Adrian Pacioaga	Influence Of Different Initiators Against The Mechanical Properties Of Poly(ϵ -Caprolactone) Used For Biodegradable Bone Implants	42
Adrian Tanase, Mihail Tircolea, Justin Onisoru, Mioara Chivu	Investigation System For Hard Metallic Powders	50
Daniela CIOBOATA, Doru Dumitru PALADE, Aurel ABALARU, Stanciu Danut	Wheel Profile Control And Monitoring System	55
Huian Gheorghe , Cardei Vladimir	Development of a sensor system for mecatronic orthetic device	61
Jan Hošek	Single Camera System for Position and Dimension Measurement of Spheres	67
Jan Hošek	Bubbled Diameter Determination in Large Measurement Volume Using Phase Doppler Anemometry	78
Tinca Lung, Ioan Lung, Ctin Bucur	Theoretical Considerations On Dimensioning The Cinematic Mechanism For Limbs Recovery Equipments With Active And Passive Movement	88
Gh. I. Gheorghe, Ion Vrabioiu, Stefan Vaduva	Considerations on using the time information from the GPS signal for achieving modern master clock/clock installations	98

Gh. Burnei, Ioan Lața, Ioan Lung, Stefan Gavrilu, Constantin Roaț	Contributions Regarding the Development of a New Orthetic Polimodular Mechatronic System for Inferior Limbs Immobility Recovery, in Infant Orthopaedics	107
Marian Blejan, Petrin Drumea, Ioana Ilie, Dumitru Vlad	Mechatronic module for monitoring the hydraulic parameters of industrial equipment	115
Petrin Drumea, Marian Blejan, Ioana Ilie	DIGITAL INTERFACE FOR PIEZOELECTRIC FORCE SENSORS	123
Ciobota Nastase-Dan	Titanium And Titanium Alloys For Biomedical And Industry Applications	128
Diana Mura Badea, Constantin Petre, Florin Teodor Tanasescu, Gabriel Vladut, Angela Voicila, Gheorghe Stefanescu, Aurel Istrate, Despina Duminica, Dinu Mihai Comanescu	New quality instruments supporting the SMEs competitiveness improvement	133
Diana Mura Badea ; Florin Tanasescu ; Aurel Istrate; Angela Voicila ; Gabriel Vladut ; Despina Duminica ; Gabriela Matache ; Inocentiu Maniu ; Iosif Carabas	Development Of The Information Platform To Characterize The Precision Mechanics Field, Mechatronic And Automation Domains, For The Increase Of The Competitiveness And Optimization Specific Activities- Development Of A Cooperative Environment	136
Radu- Claudiu Fierascu, Rodica-Mariana Ion, Irina Dumitriu	Plasmonic Materials For Biomedical Applications	142
Artur Wilkowski	A Template Matching Method for Recognition of Surveyor's Gestures in Images	168
